Who are we?

- EPHEC stands for “Ecole Pratique des Hautes Etudes Commerciales” (EPHEC University College)
- EPHEC is based in Brussels, a cosmopolitan city in the heart of Europe
- EPHEC is renowned for its Bachelor degrees in Business : Accounting, Law, E-Business, Marketing, International Trade & IT (± 4000 full-time students)
- EPHEC offers BA degrees in Automation and Electromechanics
- EPHEC was granted the new Erasmus+ University Charter and uses the ECTS system

Where are we located?

- EPHEC is situated on 3 different university campuses, 2 in Brussels and 1 in Louvain-La-Neuve (30 km south) and offers a multicultural environment.
- The ICT Week will take place on our campus of Louvain-la-Neuve, a newly build town renowned for its university but also for its shopping mall, cafes and museum.
- <http://tourisme-olln.be/en/home.html>

How to reach us?

•Arrival by air at Brussels Airport (Zaventem)

On arrival at Brussels Airport take the shuttle train to Ottignies. Look for trains with end-destinations either Namur or Luxembourg. In Ottignies take the train to Louvain-la-Neuve.

•Arrival by air at Brussels South Charleroi Airport

On arrival at Brussels South Charleroi Airport (Ryanair), take the shuttle bus to Brussels-South (Bruxelles – Midi, Brussel – Zuid).

In Brussels-South take the train to Ottignies. Look for trains with end-destinations either Namur or Luxembourg. In Ottignies take the train to Louvain-la-Neuve.

« Participating in our International ICT-Week enables students to develop technical and relational skills in an international environment. Social and cultural activities are organized to get to know better other participants. Buddies facilitate integration »

www.ephec.be

Description of the project

You will have **find solutions to help the start up Share My Park (<https://sharemypark.be/>) to manage their parking spaces using IoT devices**

You will **work in small groups**, composed of Belgian and international students.

To achieve this, you'll have to **draw upon various kinds of knowledge**. You'll also have to **use communication skills** and learn to **work and socialize with other cultures**.

At the end of the week, your project will be assessed by a jury of professionals.

You will receive a certificate of participation for **2 ECTS**.

Share My Park

Sharemypark is an **innovating parking solution**, that allows individuals and businesses to advertise and rent their unused and under-utilised parking to gain additional revenue. With Sharemypark you don't need a permanently unused spot: **Share your spot instantly anytime you vacate your spot**.

At Sharemypark, our **mission is to change the way we share our assets** when we don't use them, to create greener, smarter cities.

Accommodation for students

You will be staying in Hotel Le Piano II which is located nearby the University College. Rooms are for 2 or 3 people.

Registration for students

The registration fee of **220 €** includes 5 nights with breakfast (arrival on Sunday, departure on Friday), 5 lunches, 3 dinners and the social and cultural activities.

If you want to participate, **register** through your international coordinator **before January 15th 2018**.
