Acquis d'Apprentissage The main course objectives of the course are:

Terminaux Understand the principles and concepts of sustainable finance
Learn about framework, trends and financial instruments for promoting sustainability
Analyze the impact of financial decisions on the environment and societies
Discover sustainable finance initiatives through **case studies**.

Contenu The course of Sustainable Finance covers the following topics:

- Introduction to the concept of sustainable finance: addressing global environmental and social challenges
- Make the bridge between regulatory environment and financial concepts. Discuss International Frameworks, regional policies, governments' roles and regulatory bodies and understand their impacts on organisations.
- Understand the impact of sustainability frameworks like B Corp, ESG and GRI
- Find out fund sourcing provided by public and private sectors
- Identify the main accounting, financial and economical KPIs required
- Cover financial investment products (bonds, shares, derivatives, crypto) and Sustainable ones (green bonds, social bonds, impact investments)
- **Innovative Financial Solutions to enhance sustainability: pros and cons**
- Risk management linked to financial products (climate and transition risks, risk assessments).

Méthode d'enseignement The methodology and approach will be a mix of:
-Lecture sessions with theory, press review, conferences and case studies
-Student presentations during the course.

Acquis d'apprentissage At the end of the modules, the expected learning results are:

intermédiaires et/ou spécifiques -Understand the European Finance environment taking into account sustainability aspects.
-How to finance sustainable organisations and projects
-What are key financial components to manage to ensure organisations can face current challenges.
